

IN THE CLAIMS:

(1) Please amend Claim 1 as follows:

a¹
1. (Amended) A module, comprising:

a hermetically-sealable shell having first and second terminal sets;

a first surface acoustic wave (SAW) circuit, located within said shell and couplable to said first terminal set, that filters a first signal in a first band of communication frequencies; and

a second SAW circuit, located within said shell and couplable to said second terminal set, that filters a second signal in a second band of communications frequencies.

(2) Please amend Claim 15 as follows:

a²
15. (Amended) a module, comprising:

a hermetically-sealable shell having first and second terminal sets;

a first surface acoustic wave (SAW) circuit, located within said shell and couplable to said first terminal set, that filters a first signal in a first band of communication frequencies;

a second SAW circuit, located within said shell and couplable to said second terminal set, that filters a second signal in a second band of communications frequencies; and

a lid coupled to said shell and forming an enclosure that surrounds said first and second SAW circuits.
